Hello World 🔖

by **idlecool**

| Problem | Submissions | Leaderboard | Discussions |

A "*Hello World*" program has been widely adopted as the introductory program for learning how to code. So, let's start functional programming by writing the same program.

Sample Input

```
(Nil)
```

Sample Output

```
Hello World
```

Method Signature

```
Number Of Parameters: 0
Parameters: []
Returns: nil
Behavior: Prints "Hello World"
```

For Hackers Using Clojure

This will be the outline of your function body. Fill in the blank portion marked by the underscores.

```
(_____)
```

For Hackers Using Scala

This will be the outline of your function body. Fill in the blank portion marked by the underscores.

```
def f() = _____
```

f   🐦   in
