Solve Me First 🔖

👤 by **shashank21j**

| **Problem** | Submissions | Leaderboard | Discussions | Editorial |

Welcome to HackerRank! The purpose of this challenge is to familiarize you with reading input from stdin (the standard input stream) and writing output to stdout (the standard output stream) using our environment.

Review the code provided in the editor below, then complete the *solveMeFirst* function so that it returns the sum of two integers read from stdin. Take some time to understand this code so you're prepared to write it yourself in future challenges.

Select a language below, and start coding!

Input Format

Code that reads input from stdin is provided for you in the editor. There are **2** lines of input, and each line contains a single integer.

Output Format

Code that prints the sum calculated and returned by *solveMeFirst* is provided for you in the editor.

```
 1  process.stdin.resume();
 2  process.stdin.setEncoding('ascii');
 3
 4  var input_stdin = "";
 5  var input_stdin_array = "";
 6  var input_currentline = 0;
 7
 8  process.stdin.on('data', function (data) {
 9      input_stdin += data;
10  });
11
12  process.stdin.on('end', function () {
13      input_stdin_array = input_stdin.split("\n");
14      main();
15  });
16
17  function readLine() {
18      return input_stdin_array[input_currentline++];
19  }
20
21  /////////////// ignore above this line /////////////////////
22
23  function solveMeFirst(a, b) {
24    // Hint: Type return a+b below
25    return a + b;
26  }
27
28  function main() {
29      // write your code here.
30      // call `readLine()` to read a line.
31      // use console.log() to write to stdout
32
33      var a = parseInt(readLine());
34      var b = parseInt(readLine());;
35
36      var res = solveMeFirst(a, b);
37      console.log(res);
38  }
39
```
